DIRECTIONS: Go to www.cacareerzone.com/

Welcome to California CareerZone! Select the appropriate version (text only, graphics, or flash) that works best for your computer.

Your goal is to explore several careers and take notes (BELOW) on **two** of them. You can accomplish this in a number of ways:

1. Click on **Assess Yourself**. At the very least, complete the **Quick Assessment**, especially if you just want a confirmation of the results you received from your Career Pathways and/or Multiple Intelligences. (If you want more detailed information, then complete the **Interest Profile**. It is much more specific.) Extra: Complete Work Importance Profiler only *after* you complete your notes on two careers.
2. Compare your Quick Assessment results with those from **Career Pathways** and/or **Multiple Intelligences** and select two careers.
3. You can also go to **Industry Sectors** (at the top of the web page) and click on any of these pathways to find two careers.
4. OR go to **Search Occupations** (at the top of the web page) and type in the Search box.
5. Once you have made two selections, **COMPLETE THE CHART BELOW:**
