

WATERSHED ACADEMY

Application for 2006-2007

Please return this completed form as soon as possible to the high school counseling office to reserve your spot.

The Watershed Academy is a four-year program for students in grades 9 through 12 that provides four years of science, with specialty courses in Aquaculture, Environmental Monitoring and Environmental Science. The Academy is a partnership between business and education that provides real-world work experience in the field, as well as an integrated academic and technical curriculum. Upon graduation, students are prepared not only for entry-level employment in a high-growth profession, but are also equipped with the academic skills for continuing their education.

Student Name: _____ Gr. Level (9/05) _____
Last First
